*For 2022, the government excluded any results that were achieved by students in Year 10 from Performance Measure calculations. Given that a substantial number of the school's students sit up to 3 of their GCSE's in Year 10 rather than Year 11, this has had a significant impact on the 2022 results that have been reported in Performance Measure tables for the school. In the table above we have detailed the 2022 results that have been reported in performance tables (i.e. excluding Year 10/early entry results) and also the actual results that were achieved by students (i.e. including Year 10/early entry results).
