<p>https://www.mathswatch.co.uk</p> <p>https://www.mathsgenie.co.uk</p> <p>https://www.dr frostmaths.com</p>	<p>This is the site we use for homework and something parents can look at to see how homework is going (we aim for 70% or above) but also contains interactive questions and videos on all aspects of the syllabus.</p> <p>Here topics are listed by level with videos questions and handwritten answers. Also it has all the past papers, again, with hand written answers to use to mark work and understand 'ideal' answers.</p> <p>This is better for higher topics but does cover all levels – It is also better for skills practice rather than exam practice.</p>

<p>https://www.physicsandmathstutor.com/geography-revision/gcse-aqa/</p> <p>https://www.aqa.org.uk/subjects/geography/gcse/geography-8035/assessment-resources</p>	<p>Physics and Maths tutor has some excellent free revision resources that cover every topic that we study at GCSE. They have also been developed to follow specific exam boards so students need to ensure that they click on GCSE and AQA in order to access the correct resources.</p> <p>The AQA website has past GCSE papers which are free to access. The mark schemes are also available which allows students to attempt the exam paper and then review their answers afterwards using the answers in the mark scheme. I have found this to be especially effective at improving exam technique and reducing nerves associated with exam environments.</p>

Students will find the layout as it mirrors the textbook and the examples that we have studied from it. Purchased directly from OUP the cost is £8.25 however it is worth checking online for any offers through other suppliers.</p> <p>These flashcards are an excellent and cost effective revision resource. We have purchased a bulk order of these cards in order to pass the school discount on to our students. This resource costs £2.80 on ParentPay (RRP is £8.99). Feedback from students who used them last year was very positive and it enabled parents/carers to engage in the revision process due to questions cards with answers on the reverse.</p>
